Weight Management Patient History Questionnaire

inspire MEDICAL GROUP OF CALIFORNIA

The information requested below is very important. To give you the best care, we must have complete and ***honest*** *answers. Please be thorough and print clearly with black ink. Thank you.*

Patient Name: ______________________ **Date of Birth:** ______________________

Please record current home values below. If you do not have a blood pressure cuff, use your last recorded vitals.

Height: __________ **Weight:** __________ **Blood Pressure:** __________ **Heart Rate:** __________
Feet/Inches Pounds

WEIGHT HISTORY - *Please estimate as closely as possible for all that applies.*

Life Events	Age	Weight
Lowest weight in past five years		
Highest weight in past five years		
Weight one year ago		
Other:		

What is your Goal Weight? __________

Do you use a home scale? No Yes **How often do you weigh yourself?** __________

Have you had bariatric surgery? No Yes

If No, are you interested in learning more about bariatric/weight loss surgery? No Yes

If Yes, which procedure and when? LapBand Gastric Bypass Gastric Sleeve **Date:** __________

What is motivating you to seek this type of intervention for weight control and/or loss?

____

SOCIAL HISTORY

Do you use any tobacco? No Yes **Do you vape?** No Yes

If Yes, what? __________

How often/much? __________

Do you drink alcohol? No Yes

If Yes, what kind/how much/often? __________

Any drug use? No Yes

If Yes, what type/how much/often? __________

History of drug overdose? No Yes

If Yes, when? __________

FAMILY HISTORY

Is there obesity in the family? No Yes

If Yes, please list: ______________________________

Are there any medical illnesses in your immediate family? No Yes

Diabetes?	No	Yes	Who: ____________	Type: ____________
Hypertension?	No	Yes	Who: ____________	Type: ____________
Coronary Artery Disease?	No	Yes	Who: ____________	Type: ____________
Cancer?	No	Yes	Who: ____________	Type: ____________
Other: ____________			Who: ____________	Type: ____________

WEIGHT LOSS ATTEMPT HISTORY

Please list ALL weight loss attempts, physician-supervised programs, as well as self-monitored diets. Please take the time to be as thorough as possible.

Age you first started dieting: ____________

Type of diet (ex: Keto Diet, Jenny Craig, Weight Watchers, weight loss medication, etc.):

List any other physician-supervised and documented weight-loss attempt(s):

FOOD INTAKE

What specific food plan/diet are you currently following, if any? ______

How many meals do you consume per day? ______

Do you skip meals? No Yes Number of snacks per day: ______

Do you eat breakfast? No Yes

How late is your dinner? ______ When is your typical bedtime? ______ Do you snack after dinner? ______

Do you snack between meals? No Yes

If so, what and how often? ______

Do you have any eating related problems or concerns? No Yes

If Yes, please explain: ______

Are you willing to cook, or do you prefer purchasing meals? ______

Do you have any diet restrictions?

Vegetarian? No Yes

Gluten Free? No Yes

Other? ______

What is your daily protein intake from drinks and/or food? ______

How much **WATER** do you drink in a 24-hour period?

24oz (3 cups or less) 32oz (4+ cups) 64oz (8+ cups) **Other:** ______

What do you drink other than water? ______ How much? ______

PHYSICAL ACTIVITY

Do you exercise regularly? No Yes If yes, do you have an exercise regimen? Please list in table below.

Do you have any physical restrictions that keep you from exercising? No Yes

If yes, explain: ____________________

Type of Physical Activity (Walking, Yoga, Cardio, Weights, Swim, etc.)	**Intensity** (Light, Medium, or High)	**Daily?**	**How Often?**	**Comments**
		No Yes		
		No Yes		

PERSONAL MEDICAL HISTORY Do you have or have you had any of the following? Check all that apply.

Psychological

Do you have any of the following? (Please check all that apply)

Depression Panic Attacks Anxiety Bipolar Disease Eating Disorder

Obsessive Compulsive Disorder Other: ____________________

Seeking treatment? No Yes

Medications? No Yes (Please list under medications - page 6)

Do you have a history of suicide attempt or suicidal ideation? No Yes

If so, when? ____________________

Are you currently seeing a psychologist/psychiatrist/therapist? No Yes

Sleep Health

How many hours do you typically sleep per night? __________ hours

If you have insomnia, do you have trouble falling asleep or staying asleep? No Yes

Has anyone told you that you snore loudly or stop breathing for a few seconds during sleep? No Yes

Do you have excessive daytime sleepiness? No Yes

Have you been diagnosed with Sleep Apnea? No Yes

If yes, are you currently on CPAP or other oral device? No Yes

Cardiovascular

High blood pressure No Yes

If yes, medication? No Yes (Please list under medications - page 6)

Heart attack? No Yes When? ____________________

Heart bypass surgery? No Yes When? ____________________

Stents? No Yes When? ____________________

Pacemaker? No Yes When? ____________________

Endocrine

Diabetes? No Yes **If yes, do you have low sugar episodes?** ____________________

If yes, please write your current A1C blood test value, if known: ____________________

If yes, medication? No Yes (Please list under medications - page 6)

Thyroid problems? No Yes **When?** ____________________

Medications? No Yes (Please list under medications - page 6)

Gastrointestinal

Heartburn? No Yes **If yes, how often a week?** ____________________

Medications? No Yes (Please list under medications - page 6)

Do you get pain in your upper abdomen after eating or in the middle of the night, other than heartburn? No Yes

Have you ever been told you have gallstones? No Yes

Have you ever been told you have a fatty liver? No Yes

Respiratory

Do you have asthma? No Yes

Do you have COPD/Emphysema? No Yes

If yes, medications? No Yes (Please list under medications - page 6)

How far can you walk before you get short of breath? ____________________

Musculoskeletal

Do you have joint pain? No Yes **If yes, where?** ____________________

Do you take medications for this? No Yes (Please list under medications - page 6)

Have you seen an Orthopedic MD for this? No Yes

Have you had surgery for this? No Yes

If yes, when and what? ____________________

Are you waiting for a joint replacement until you lose weight? No Yes

Gynecologic and Obstetric

Age at onset of periods: __________ Frequency: __________ Length of Period: __________

Pregnancies: __________ Births: __________ Miscarriages: __________

Prolonged or abnormal bleeding? No Yes **If yes, describe:** ____________________

Any other medical history/conditions besides listed above? (Include Medication/Food Allergies)

MEDICATIONS (Including vitamins - please attach medication list if applicable)

I do not currently take any medications

Medication	Dosage	Frequency	Comments

I certify that all the information that I provided on this questionnaire is true, accurate, and complete.

Inspire Medical Group of California Disclaimer

1. The staff at Inspire Medical Care will provide the tools you need to achieve the weight loss goal that YOU set to yourself. We will offer the best advice that we can give and add some little "tricks" that we have either learned from personal experience or from the many clients who have shared their helpful hints with us. **Initial:** ___________

2. We offer no magic potions, but we will educate you on some supplements which we have found to be helpful to some clients. We will not upsell you on any products that are not relative to you reaching your goal. **Initial:** ________

3. The program is made up of the following: The client's desire to lose weight, improve their health and the willingness to make the necessary lifestyle changes to achieve their goal and maintain that goal. **Initial:** ________

4. The tools that we provide include a diet manual, accompanied by the appropriate recipes included in the guide, exercise suggestions, a B12 injection once per month, lots of support and ideas on a weekly basis as we track your progress. **Initial:** _____________

5. The staff will share some little tricks to help you learn from day one how to keep the weight off. We do not believe that clients "cheat", we call it "living". It is not necessary to feel like you have lost all progress if you have a big party to go to or some bad days which ended up with some comfort foods. Those days will happen and as long as it is not day after day, it is easy to "offset" those days. We will teach you what to do while you are in the "dieting phase" so that once you reach your goal you will have already practiced and become comfortable with the remedies to help you maintain your desired weight. **Initial:** ______________

6. We would much appreciate having Before and After pictures of you to share in our marketing efforts. If you are not comfortable with this please write "NO" at the end of this paragraph. It is not a requirement. If you are so inclined, we would appreciate sharing your personal progress on Facebook, Instagram, and other relevant social media sites. **Initial:** ____________

7. To justify the use of weight loss enhancers, the patient must have a Body Mass Index (BMI) of 30 or above, or a BMI greater than 26 with at least one comorbidity factor, or a measurable body fat content equal to or greater than 25% of total body weight for male patients or 30% of total body weight for women. **Initial:** __________ **Counselor:** __________

Please CHECK if you have any of the following:

Cardiovascular disease	Chronic Lung Disease
Myocardial Infarction (MI)	Chronic Obstructive Pulmonary Disease (COPD)
Hypertension (HBP)	Emphysema

Client Signature: ______________________________ Date: ______________________

Counselor Signature: ____________________________ Date: ______________________

Consent to Participate in Inspire Medical Group Weight Loss Program

I understand that I will be meeting with a member of the medical staff to review all the literature associated with the program and I will be given the opportunity to have all of my questions regarding the weight loss program answered. All of the information that I have provided to the medical staff is correct and complete to the best of my knowledge.

I understand that medications used in this program may cause or aggravate high blood pressure or alter insulin requirements in diabetes and that both hypertension and diabetes may improve with weight loss. I understand that although unusual, there may be adverse reactions to the medications used including rapid heart rate, restlessness, agitations, poor sleeping, dizziness, headaches, blurred vision, psychotic states, dryness of the mouth, constipation, diarrhea, nausea, stomach pains, urinary frequency/discomfort, and changes in sex drive.

I understand that dietary management and physical exercise are a necessary component of this, and all weight loss programs and MUST be utilized for optimum results. I have not been given any guarantees or promises regarding the expectations or results in this weight loss program. I freely and voluntarily consent to participate and agree to follow the instructions given. **I will not change dosages or frequency of any medications prescribed.** I understand the guidelines found in the booklet of Inspire Medical Groups weight loss program were approved by a licensed nutritionist.

Please be advised using any recreational drugs; ie: cocaine, marijuana, or heroin will cause FATAL adverse reactions with any medication prescription.

I give my permission for the medical staff/counselors to review this program with me and guide me in my weight loss journey.

Informed Consent: Semaglutide / Tirzepatide for Weight Loss

Semaglutide is a GLP 1 Receptor. It mimics the action of a hormone called Glucagon-Like Peptide (GLP). Glucagon is the storage form of carbohydrates, which is a factor in weight gain. Glucagon causes stored carbohydrates to break down and move into the bloodstream for metabolism. Glucagon decreases carbohydrate absorption from the gut while decreasing appetite by slowing gastric mobility. When blood sugar rises after eating, these drugs stimulate the body to produce more insulin. The extra insulin helps lower blood sugar. The lower blood sugar levels help control type 2 Diabetes. Tirzepatide affects two receptors (dual action), acting on both GIP (glucose insulinotropic polypeptide) and GLP-1 receptors (glucagon-like peptide). This dual response further increases safety and decreases hunger. Combined with a sensible diet and healthy lifestyle changes, Semaglutide and Tirzepatide effectively reduce body weight. Semaglutide and Tirzepatide curb appetite and slow food movement from the stomach to the small intestines. As a result, clients feel full longer and subsequently eat less, leading to weight loss.

Further studies have demonstrated that GLP-1 and SGLT-2 (sodium-glucose transport protein 2) inhibitors may reduce the risk of heart disease, heart failure, stroke, and kidney disease. Many clients prescribed these medications have seen blood pressure and cholesterol levels improve.

Side Effects

Like most prescription drugs, both Semaglutide and Tirzepatide can have moderate to severe side effects in some users.

- Abdominal pain (most common)
- Redness
- Constipation
- Dizziness
- Nausea
- Belching
- Diarrhea
- Vomiting
- Injection site reactions
- Blurred vision
- Headache
- GERD
- Depression; confusion; mood changes
- Gall Bladder pain with pre-existing cholelithiasis or gallstones
- Irritability
- Hair Loss
- Complications with anesthesia

Initials: ______________

Hypoglycemia (low blood sugar) has been linked to GLP-1 medications when combined with insulin or sulfonylureas.

Any severe abdominal pain, vomiting, or constipation should be reported to the Inspire Medical Group staff for referral to our Medical Director for guidance.

MEDICAL GROUP
OF CALIFORNIA

Informed Consent: Semaglutide / Tirzepatide for Weight Loss

Medications

Initial Health Assessment will review all medications before clearance for participation in a GLP-1 Weight Loss Program. Do you take any of the following medications? Please check if currently prescribed:

Amaryl	**Glipizide ER**
Glimepiride	**Glynase**
Glucotrol	**Tolbutamide**
Glipizide	**Tolazamide**

Warnings

Effects on Birth Control and Pregnancy
GLP-1 medications may affect the efficacy of oral contraceptives and birth control shots. Clients using oral birth control medications and birth control shots are strongly encouraged to use an alternative birth control plan while enrolled in GLP-1 Weight Loss Programs.

Pregnancy
Clients who are pregnant or attempting to become pregnant should stop using these medications. Animal studies have shown that these agonists may reduce embryo size and may cause developmental abnormalities.

Anesthesia
Clients scheduling any surgical procedure involving anesthesia must stop using GLP-1 medications at least two weeks before the procedure. Clients should notify anesthesiologists that they have been prescribed GLP-1 medications.

Initials: ______________

Exclusions from GLP-1 Weight Loss Programs
Clients diagnosed with one or more of the following conditions may not participate in GLP-1 Weight Loss Programs. Please review this list carefully and check any pre-existing conditions.

Medullary Thyroid Cancer	**Multiple Endocrine Neoplasia (all types, tumor or mass lesion)**
Pancreatis	**Hepatobiliary disease (GB disease)**
Gastroparesis	**Abnormal liver function tests**

Please initial here if, to the best of your knowledge, you are **free** of all the above medical conditions.

Initials: ______________

Following a thorough review of your health assessment, our Medical Director will make the final determination for full participation in the GLP-1 Weight Program.
